ABSTRACT	iii
GENERAL INTRODUCTION	1
CHAPTER 1. A STUDY OF THE SPAWNING CYCLES OF <i>AEQUIPECTEN OPERCULARIS</i> AND <i>PECTEN MAXIMUS</i> FROM THE LAXEY BAY AND PORT ST. MARY FISHING GROUNDS IN THE NORTH IRISH SEA	8
1.1 INTRODUCTION	8
1.2 MATERIALS AND METHODS	12
1.3 RESULTS	15
1.3.1 Spawning cycle of <i>Aequipecten opercularis</i>	15
1.3.1.1 Staging method	15
1.3.1.2 Gonadal index	19
1.3.1.3 Gonad dry weight	21
1.3.2 Spawning cycle of <i>Pecten maximus</i>	22
1.3.2.1 Staging method	22
1.3.2.2 Gonadal index	24
1.3.2.3 Gonad dry weight	26
1.4 DISCUSSION	28
1.4.1 Spawning cycle of <i>Aequipecten opercularis</i>	30
1.4.2 Spawning cycle of <i>Pecten maximus</i>	34
1.4.3 Geographical variation in the spawning cycle of other species	37
CHAPTER 2. SEASONAL VARIATION IN THE SOMATIC TISSUE DRY WEIGHTS AND INDICES OF <i>AEQUIPECTEN</i> <i>OPERCULARIS</i> AND <i>PECTEN MAXIMUS</i>	39
2.1 INTRODUCTION	39
2.2 MATERIALS AND METHODS	41
2.3 RESULTS	42
2.3.1 <i>Aequipecten opercularis</i>	42
2.3.1.1 Adductor muscle dry weight and index	42

2.3.1.2 Mantle tissue dry weight and index	44
2.3.1.3 Digestive gland dry weight and index	44
2.3.1.4 Somatic tissue dry weight	45
2.3.2 <i>Pecten maximus</i>	46
2.3.2.1 Adductor muscle dry weight and index	46
2.3.2.2 Mantle tissue dry weight and index	47
2.3.2.3 Digestive gland dry weight and index	47
2.3.2.4 Somatic tissue dry weight	48
2.4 DISCUSSION	50
CHAPTER 3. SEASONAL VARIATION IN ENERGY STORAGE AND UTILISATION IN <i>AEQUIPECTEN OPERCULARIS</i> AND <i>PECTEN MAXIMUS</i> IN RELATION TO GAMETOGENESIS	54
3.1 INTRODUCTION	54
3.2 MATERIALS AND METHODS	57
3.3 RESULTS	63
3.3.1 Biochemical composition of <i>Aequipecten opercularis</i>	63
3.3.1.1 Adductor muscle	63
3.3.1.2 gonad (testis and ovary)	67
3.3.1.3 Mantle tissue	71
3.3.1.4 Digestive gland	73
3.3.1.5 Percentage of total water	76
3.3.2 Biochemical composition of <i>Pecten maximus</i>	77
3.3.2.1 Adductor muscle	77
3.3.2.2 Gonad (testis and ovary)	80
3.3.2.3 Mantle tissue	83
3.3.2.4 Digestive gland	85
3.3.2.5 Percentage of total water	88
3.4 DISCUSSION	89
4. GENERAL DISCUSSION	100
4.1 Synchronisation with productivity cycles	102
4.2 Synchronisation with temperature	106
4.3 Other exogenous and endogenous factors synchronising spawning	108

4.4 Depth	109
4.5 Other factors affecting feeding	111
4.6 Geographical variation in oocyte lysis	114
4.7 Genetic regulations of seasonal cycles	116
4.8 Future work	118
BIBLIOGRAPHY	120
APPENDICES	155
