	Abstract	iii
	Table of content	iv-v
	List of tables	vi
	List of figures	vii
1.	INTRODUCTION	
	1.1 Background of the study	1-2
	1.2 Lagoon/estuaries	2
	1.3 Kraal fishery in Bolgoda estuary and Rekawa lagoon	4-5
	1.4 Statement of the problem	5-6
	1.5 Research objectives	6
	1.6 Significance of the study	6-7
	1.7 Scope and limitation of the study	7
2.	LITERATURE REVIEW	
	2.1 Terms of Definition of a Fishermen	8
	2.2 Kraal Fishery in Bolgoda Estuary	8-10
	2.3 Kraal Fishery in Rekawa Lagoon	10-11
	2.4 Shrimp Marketing Channel	11-12
	2.5 Pollution	13-14
	2.6 Mangroves and fisheries	14-17
	2.7 Socio economic background of the fishermen	17-18
3.	RESEARCH DESIGN	
	3.1 Selection of kraal fishing gear and study area	19
	3.2 Selection of the Sample	21
	3.3 Data Collection	21-22
	3.4 Data Analysis	22
4.	KRAAL FISHERY IN BOLGODA ESTUARY AND REKAWA LAGOON	
	4.1 Kraal fishery in Bolgoda estuary and Rekawa lagoon	24-25
	4.2 Structure of the kraal	25
	4.3 Operation of a kraal	26
	4.4 Cost of constructing a kraal	26-27
	4.5 Impediments to kraal fishery	28-29
	4.6 Catch composition	29-31
	4.7 Income from kraal fishery	32-33
	4.8 Conflicts between kraal and other fishing gears	33-34
	4.9 Women involvement in kraal fishery in Bolgoda estuary	33-34
	4.10 Special-area management plan for Rekawa lagoon	34-35

	PAGE
5	MARKETING SYSTEM
	5.1 Marketing system in Bolgoda estuary and Rekawa lagoon 36
	5.2 Marketing channel 36-38
	5.3 Impediments in shrimp marketing in Bolgoda and Rekawa lagoon 38-39
	5.4 Patron client relationship between fishermen and fish vendors 39-40
6	POLLUTION
	6.1 Pollution in Bolgoda wstuary 41-43
	6.2 Pollution in Rekawa lagoon 44
	6.3 Impact of pollution for fisheries 44-45
7	MANGROVES IN BOLGODA ESTUARY AND REKAWA LAGOON
	7.1 Effects of mangrove destruction for kraal fisheries 46-47
	7.3 Mangroves in Bolgoda area 50
	7.4 Mangroves in Rekawa area 50-51
8	SOCIO ECONOMIC PROFILE
	8.1 Socio economic profile in Bolgoda estuary and Rekawa lagoon 52
	8.2 Housing and other amenities 55-56
	8.3 Household income of kraal fishing families 56
	8.4 Savings and loans obtained for kraal fishery 56-57
	8.5 Household expenditure pattern 57-58
	8.6 Educational Achievement 59
	8.7 Case Studies 60-62
9	SUMMARY OF THE FINDINGS AND RECOMMENDATIONS
	9.1 Summary of findings 63-65
	9.2 Recommendations for further Research 63-66
	Reference 67-70
	Appendices 1 Fisheries Legislation 71-73
	Appendices 2 Questionnaire 74-81
	Appendices 3 Supplementary Graphs 82-86
	Appendices 4 Photography 87-92

LIST OF TABLES

Table No	Description	Page
1.1	Occupations of fishermen engaged in kraal fishery in Bolgoda estuary	5
1.3	environmental problems and natural problems pertaining to kraal fishery	6
4.1	Number of kraals and their traps operated in January to April 1999	24
4.2	Cost of constructing one trap in Bolgoda estuary	27
4.3	Cost of constructing one trap in Rekawa lagoon	27
4.4	Priority list of impediments in Bolgoda estuary and Rekawa lagoon	29
4.5	Bolgoda estuary: catch composition from 7 kraals (68 traps) March 3 rd to March 9 th 1999	30
4.6	Rekawa lagoon: catch composition from 7 kraals (20 traps) April 1 st to April 7 th 1999	31
4.6	Bolgoda estuary: Income obtained from 7 kraals operations March 3 rd to 9 th March 1999	32
4.7	Rekawa lagoon: income obtained from 7 kraals operation April 1 st to April 7 th 1999	33
5.1	Impediments in shrimp marketing in Bolgoda estuary and Rekawa, as Perceived by the fishermen	39
5.2	Kraal fishermen obtaining money and provision of kraal construction materials from fish vendors and fish assemblers	40
6.1	The results of surface water analysis	42
6.2	Drain water analysis results	43
6.3	Recognizance of water pollution	43
7.1	Impact of mangrove degrading in Bolgoda area	50
8.1	Loans obtained by kraal fishermen in Bolgoda estuary	57
8.1	Households expenditure pattern of kraal fishermen from Bolgoda and Rekawa	57

LIST OF FIGURES

Figure	Title	Page
1.1	Map of lagoons and estuaries in Sri Lanka	3
3.1	Selection of the sample strata	20
3.2	The research framework	23
4.1	Bolgoda estuary: catch composition from 7 kraals, March 3 rd -March 9 th 1999	30
4.2	Rekawa lagoon: catch composition from 7 kraals, April 1 st April 7 th 1999	31
5.1	Shrimp/fish marketing channel operating in Bolgoda	37
5.2	Shrimp/fish marketing channel operating in Rekawa	38
7.1	How mangrove environment important for the completion of life cycle of shrimps	48
7.2	How useful mangrove food web for the aquatic animals (fish/shrimps)	49
8.1	Map of bolgoda estuary	53
8.2	Map of Rekawa lagoon	54
8.3	Housing condition of kraal fishermen in Bolgoda area in 1999	55
8.4	Household expenditure pattern of kraal fishermen in Rekawa in 1999	55
8.5	Household expenditure pattern of kraal fishermen in Bolgoda	58
8.6	Household expenditure pattern of kraal fishermen in Rekawa	58
