Chapter - I	
1. Introduction to the thesis	13
1.1. Contributions of the fisheries	14
1.2. Fishery development and small-scale fishing as a sustainable livelihood	14
1.3. Fisheries development and the sustainability of the marine fisheries	15
1.4. Property rights and marine fish resource conservation	16
1.5. Problems of state regulations on marine fisheries management	17
1.6. Importance of institutions for marine fisheries management	19
1.7. Socio-economic factors, livelihood and fish resource conservation	20
1.8. Research Problem	21
1.9. Research question	22
1.10. Organization of the Thesis	22
Chapter - II	
2. Theoretical Perspective: Livelihood Activities and Institutions	23
2.1. Research Framework for a household economy of the Small-Scale Craft Fishery	23
2.1.1. Introduction	23
2.1.2. Research framework for the study	25
2.2. Theoretical perspectives on institutions	34
2.2.1. Identification of institutions	34

2.2.2. Outcomes from responses to an institution	38
2.2.3. Transaction costs, legitimacy and compliance with institutions	40
2.3. Conclusion	45
Chapter – III	
3. Methods	46
3.1. Chronology of research process	46
3.2. Location of the study	48
3.3. Baseline survey and the research site selection	51
3.4. Research unit, the sample, types of data and data collection	51
3.5. Operationalization of the research questions	53
3.5.1. Fishing practices and livelihoods of households	53
3.5.1.1. Identification of the relevant variable	53
3.5.1.2. Defining and measuring the variables	55
3.5.1.3. Determination of variables related to organizations	60
3.5.1.4. Definition and data collection related to organizations	61
3.5.2. Identification of institutions related to small-scale fisheries	62
3.5.2.1. Determination of variables related to institutions	62
3.5.2.2. Defining and data collection of variables for institutions	63
3.5.3. Responses of fishers to institutions	64
3.5.3.1. Measuring compliance of fishers with each institution	64
3.5.4. Influences of personal attributes on fish catch	65
3.5.4.1. Hypotheses	65
3.5.4.1.1. Hypotheses of explanatory variables	66
3.5.4.1.2. Hypothesis of overall regression line	68
3.5.4.2. Regression model for resource appropriation	69
3.5.4.3. Variables	70
3.2.4.4. Measurement of Variables	70

3.6. Analysis of Data	73
3.6.1. Fishing practices, fish resource use and livelihood activities of households	73
3.6.2. Identification of institutions related to small-scale fisheries	73
3.6.3. Response to institutions	73
3.6.4. Influences of personal attributes of a fisher on fish catch	73
3.6.4.1. Multiple regression technique	73
3.7. Conclusion	74
Chapter – IV	
4. Contextual attributes of small-scale craft fisheries	75
4.1. Macro level economic policy	75
4.2. Physical environment	84
4.2.1. Natural setup of landing center	84
4.2.2. <i>Sea domain of fishers in the selected research sites</i>	85
4.2.3. Seasonal variations in the marine environment	87
4.3. Natural disasters	89
4.3.1. Storms	89
4.3.2. Tsunami	89
4.4. Conclusion	93
Chapter – V	
5. Livelihood assets of small-scale fishers	94
5.1. Natural capital assets	94
5.1.1. Marine resources	94
5.1.2. Land	97
5.2. Physical assets	99
5.2.1. Fishing assets	99
5.2.1.1. Craft, engines and global position devices	99
5.2.1.2. Fishing gear	100

5.2.1.2.1. Types and costs of gears	100
5.2.1.2.2. Fisher's ownership of gears and annual expenditure	105
5.2.2. Non-fishing physical assets	107
5.2.2.1. Shelter	107
5.2.2.2 Other physical assets	108
5.3. Financial assets	109
5.3.1. Financial sources	109
5.3.2. Cash deposits	111
5.4. Human capital assets	113
5.4.1. Education of the fishers	113
5.4.2. Fishing experience	113
5.4.3. Labour sources for gear preparation and repair	114
5.4.4. Family size and labour force of the households	116
5.5. Social capital assets	117
5.5.1. Informal groups	117
5.5.2. Job opportunities	118
5.5.3. Social assets used for obtaining physical assets	118
5.6. Conclusion	119
Chapter - VI	
6. Livelihood activities and livelihood outcomes of small-scale fishermen	120
6.1. Livelihood activities	121
6.1.1. Use of various fishing gears	126
6.1.2. Supplementary livelihood activities	129
6.2. Livelihood outcomes	130
6.2.1. Per capita total monthly income of fisher households, per capita monthly income from fishing in the landing centre and poverty lines	131
6.2.2. Livelihood assets and incomes from livelihood activities	133
6.3. Conclusion	137

Chapter - VII	
7. Organizations related to the small-scale craft fishery	138
7.1. Fisher organizations	138
7.1.1. Fishing community as a social organization	138
7.1.2. Fisheries Co-operative Societies	139
7.1.2.1. Fisheries Co-operative Societies (FCS) in Kalametiya landing centre	139
7.1.2.2. Fisheries co-operative societies (FCS) in Welipatanwila landing centre	142
7.2. State organizations	142
7.2.1. The Department of Fisheries and Aquatic Resources (DFAR)	142
7.2.2. The National Aquatic Resources Research and Development Agency (NARA)	143
7.3. Conclusion	145
Chapter - VIII	
8. Institutions related to the small-scale craft fishery	146
8.1. Norms	146
8.2. Working rules	149
8.2.1. Non-codified community working rules	149
8.2.2. State working rules (codified working rules)	161
8.3. Conclusion	166
Chapter – IX	
9. Influence of payoffs and transaction costs on response to institutions	167
9.1. Influence of payoffs on response to an institution	167
9.1.1. Norms	167
9.1.2. Working rules	169
9.1.2.1. Non-codified community working rules	170
9.1.2.2. State regulations	177
9.2. Responses to institutions and transaction costs	184
9.2.1. Norms	184

9.2.2. Working rules	184
9.2.2.1. Non-codified working rules	184
9.2.2.2 State codified working rules	190
9.3. Conclusion	195
Chapter – X	
10. Influences of a fisher's personal attributes on fish catch	197
10.1. Descriptive statistics of the variables	197
10.2. The fish catch model	199
10.3. Conclusion	203
Chapter – XI	
11. Conclusions and Policy Implications	204
11.1. Conclusions	204
11.1.1. Specific research questions	204
11.1.2. Main research question	210
11.2 Reflections on theory	212
11.3. Policy implications	213
References	219
Appendices	230
Nederlandse Samenvatting (Dutch Summary)	283

List of tables

Table	Page
Table-2.1: Transaction cost components relevant to the implementation of institutions considered in the study	43
Table-3.1: Variables of contextual factors, livelihood assets, livelihood activities and livelihood outcomes	43
Table-3.2: Organizations and relevant information	60
Table-3.3: Institutions and relevant information	63
Table-3.4: Measuring compliance with institutions	65
Table-4.1: Changes in consumer demand for fresh fish 1995-2005	76
Table-4.2: Total fish production of fishing sub-sectors (MT)	77
Table-4.3: Consumption, export quantities, total production and import quantities of fish	77
Table-4.4: Wholesale prices (SLR) per kg of imported dried fish at Colombo market	78
Table-4.5: Wholesale prices (SLR) of local dried fish at Colombo market	78
Table-4.6: Average retail prices of dry fish in Colombo suburb markets	79
Table-4.7: Buyers' involvement in fish marketing of Kalametiya landing centre	80
Table-4.8: Buyers' involvement in fish marketing of Welipatanwila landing centre	80
Table-4.9 : Wholesale, retail and landing site prices of fresh fish in year 2006	82
Table-4.10: Fisher perspective of the existing market at the beach level	83
Table-4.11: Overview of bad weather conditions (from 1 st of February to 31 st of December, 2006)	90
Table-4.12: Small-scale fishery related tsunami changes Hambantota District	89
Table-4.13: Tsunami damaged craft and engines in Kalametiya and Welipatanwila	91
Table-4.14: Time period and % of respondents without fishing after the 2004 tsunami	91
Table-4.15: Tsunami-related gears losses in Kalametiya and Welipatanwila	92
Table-5.1: Monthly value of fish landed in the two landing centres	98
Table-5.2: Paddy lands owned and rented by respondents of Welipatanwila	98
Table-5.3: Crafts, motor, GPS devices and compass owned and used by fishers	99
Table-5.4: Type and annual costs of gears per fisher in Kalametiya landing centre	101
Table-5.5: Type and annual costs of gears per fisher in Welipatanwila landing centre	103
Table-5.6: Ownership of gear types and annual expenditure per fisher in Kalametiya	105
Table-5.7: Ownership of gear types and annual expenditure per fisher in Welipatanwila	106
Table-5.8: Distribution of housing categories	109
Table-5.9: Vehicles owned by the respondents	109
Table-5.10: Fishers' access to financial capital	110
Table-5.11: Distribution of cash deposits and returns to the interviewed fishers	112
Table-5.12: Educational achievements of the respondents	113
Table-5.13: Fishing experience in years	114
Table-5.14: Sources of labour for preparation of fishing gears	115
Table-5.15: Annual average labour requirements for gear preparation	116
Table-5.16: Family size and labour force of households in Kalametiya and Welipatanwila	117

Table-6.1: Gear use in Kalametiya in 2006 in percentages that indicate number of fishers using each gear for each month (n=64)	124
Table-6.2: gear use in Welipatanwila in 2006 in percentages that indicate number of fishers using each gear for each month (n=21)	127
Table-6.3: Supplementary livelihood activities in Kalametiya	128
Table-6.4: Supplementary livelihood activities in Welipatanwila	129
Table-6.5: Monthly average total income of fishing households in Kalametiya and Welipatanwila	130
Table-6.6: Percentages of fisher households below the poverty lines in the landing centres	133
Table-6.7: Annual household income and quantifiable livelihood assets in Kalametiya and Welipatanwila	136
Table-7.1: Membership and services from FCS and fisher attitudes	141
Table-8.1: Typology of prevailing institutions in Kalametiya and Welipatanwila	147
Table-8.2: Informal contracts in Kalametiya (n=64)	152
Table-8.3: Informal contracts in Welipatanwila (n=21)	154
Table-9.1: Compliance of respondents with non-codified working rules	176
Table-9.2: Compliance of the interviewed fishers with the state regulations	183
Table-9.3: Transaction cost components of non-codified community working rules	189
Table-9.4: Transaction cost components of state codified working rules (state regulations)	194
Table-10.1: Descriptive statistics of variables in two models	198
Table-10.2: Linear fish catch model	199
Table-10.3: Heteroscedasticity corrected fish catch model	202

List of figures

Figure	Page
Figure-2.1: A framework for exploring livelihoods of a fisher household	28
Figure-2.2: A typology of institutions	37
Figure-2.3: Increasing trend of complexity, formality and transaction costs of institutions	44
Figure-5.1: Variation of monthly fish catch by the respondents in Kalametiya landing centre in year 2006	96
Figure-5.2: Variation of monthly fish catch by the respondents in Welipatanwila landing centre in year 2006	96
Figure-5.3: Types of gears owned by fishers in Kalametiya landing centre	102
Figure-5.4: Types of gears owned by fishers in Welipatanwila landing centre	104
Figure 6.1: Averages of per capita total household monthly incomes and averages of per capita household monthly fishing incomes in Kalametiya and Welipatanwila compared with national and district poverty lines (2006).	132

List of plates

Plate	Page
Plate1: Location of Hambantota district in Sri Lanka	49
Plate2: Fishery harbours and landing centres in Hambantota district	50
Plate 3: Sketch map of villages of the surveyed households fishing in Kalametiya and Welipatanwila landing centres	52
Plate 4.1: Kalametiya landing centre	86
Plate 4.2: Welipatanwila landing centre	86
Plate 4.3: Main two monsoon winds and sea currents of Sri Lanka	88
